Dear Sister Donna and Sister Grace,

Re: Open Letter to Congress from the Sisters of Charity Federation  
Response from 5 Canadian Congregations in the Federation

As Canadian registered charities and proud members of the Sisters of Charity Federation, we write to express our support for the values and concerns outlined in this writing. While we are not signatories to the letter itself, we stand in solidarity with our fellow members in support of measures that protect the dignity and well-being of all, particularly the most vulnerable in our society.

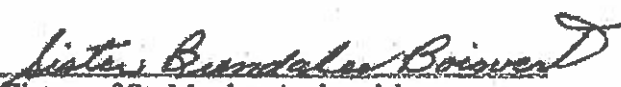

Our faith and mission as Canadian Religious Congregations, compel us to advocate for justice, peace, and care for those on the margins. Across borders, we share a common responsibility to act with compassion and integrity in addressing poverty, social inequities, environmental stewardship, and human rights. The decisions made by lawmakers across the border have profound implications, not only for those within your nation but also for the global community, including our own work in Canada and beyond.

As part of a global community, we are interconnected in our efforts to promote justice and care for one another. Our collective future depends on decisions by lawmakers worldwide that reflect the values of human dignity, equity, and shared responsibility.

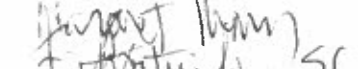

We continue to pray for your wisdom and discernment as you advocate for the shared concerns of our Federation members.

Sincerely, Canadian Congregation Leaders
